

Information topic	Details
Indicator name	Number of light vehicles per 1000 population
Domain and topic	Air Quality: Motor vehicles Transport: Motor vehicles
Indicator definition and units	Number of light vehicles per 1000 population in New Zealand and regions. Light vehicles include: <ul style="list-style-type: none"> - light passenger vehicles (passenger cars and vans) - light commercial vehicles (if under 3500kg) (includes goods vans, trucks, utility vehicles, buses, motor caravans) Statistics are also reported for electric vehicles (includes pure electric and plug-in hybrid vehicles)
Data source	<ul style="list-style-type: none"> - Ministry of Transport: Annual Vehicle Fleet Statistics - Ministry of Transport: Monthly electric vehicle registrations
Time period and time scale	Annual; from 2000 onwards
Population coverage	All vehicles on the Motor Vehicle Register, excluding those that are exempt from having a license (not used on roads) and those that have an expired license (if the license has not been renewed within 6 months.)
Measures of frequency	<ul style="list-style-type: none"> - Number of light vehicles per 1000 population - Number of light vehicles per 1000 population, per region - Number of light electric vehicles per 1000 population - Number of light electric vehicles per 1000 population, per region
Limitations of indicator	Factsheets based on 2014 data onwards should not be compared with earlier published factsheets (see 'Limitations of data source' below).
Limitations of data source	The data come from the Motor Vehicle Register. Since the Warrant of Fitness update in 2014, the statistics have excluded vehicles when their license expired (if it has not been renewed within 6 months) (Ministry of Transport 2016). This approach gives a larger live fleet size than previously published. The 2014 published statistics have reworked all the time trend comparisons; this approach means data should not be compared with earlier published statistics and factsheets.
Created by	Ministry of Transport New Zealand
Related indicators	<ul style="list-style-type: none"> - Number of motor vehicles in New Zealand, by type (including diesel and electric vehicles) - Average age of vehicle fleet
