Time period and time scale	Annual; from 2000 onwards
Population coverage	All vehicles on the Motor Vehicle Register, excluding those that are exempt from having a license (not used on roads) and those that have an expired license (if the license has not been renewed within 6 months).
Measures of frequency	<ul style="list-style-type: none"> - Number of motor vehicles, by type - Number of diesel motor vehicles, by type - Number of electric vehicles, by type
Limitations of indicator	Factsheets based on 2014 data onwards should not be compared with earlier published factsheets (see 'Limitations of data source' below).
Limitations of data source	<p>The data come from the Motor Vehicle Register. Since the Warrant of Fitness update in 2014, the statistics have excluded vehicles when their license expired (if it has not been renewed within 6 months) (Ministry of Transport 2016). This approach gives a larger live fleet size than previously published.</p> <p>The 2014 published statistics have reworked all the time trend comparisons; this approach means data should not be compared with earlier published statistics and factsheets.</p>
